EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Judy Mohr on 3/30/2006.

The application has been amended as follows:

In claim 1, lines 3-4, "at least about 9×10^8 Units" has been changed to "about 1×10^9 Units or more".

The following is an examiner's statement of reasons for allowance:

Claim 1 has been amended because the specification does not provide blazemarks to the specific use of 9×10^8 Units in the treatment of multiple sclerosis. The parts of the specification using this number deal with treatment of hepatitis C, not MS. However, the last sentence of paragraph 0076 provides support for claim 1 as amended.

Applicant's arguments are convincing, particularly in light of the declaration of Dr. Kachuck providing evidence of efficacy in a human clinical trial.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1648

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
